**ILP Services will not be denied to any child if your family is unable to pay or does not allow us to bill insurance**

\*Enrolled children are charged an annual participation fee by their local ILP. You will not be charged more than the actual cost of services. Fees are based on a sliding scale; the amount depends on a family's income and size, renewed each year or for significant changes. Families who have public benefits are not charged an annual participation fee. ILP will ask your permission to bill your insurance. If you allow us to bill services to your insurance, we will waive your co-pays and deductibles and reduce your annual participation fee by 50 percent. The link below will take you to charges that may be billed to insurance.
